Installation area should be flat on the ground, put it on the floor, use directly indoor.

□

Need to connect water in and water out pipe connection (refer to the following technical parameters

Working voltage is AC220V/50HZ/1Ph

Main parts for machine

NO.	Part name	Model	QTY	Unit	Remarks
1	Boot washer	HT-7300 Series	Single position	SET	Standard
2	Handrail	Standard	2	PCS	
3	Foot board	Standard	2	PCS	
4	Brush for sole	Standard	2	PCS	
5	Brush for boot leg	Standard	4	PCS	

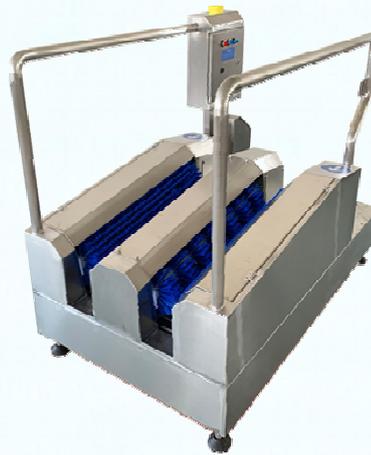

Technical Parameter

Product	HT-7300 Series Boot Washer
Model	HT-7308, Size: L1500xW900xH1200mm HT-7312, Size: L2000xW900xH1200mm HT-7315, Size: L2500xW900xH1200mm
Manufacturer	China
Electric control	Sensors: OMRON, Power control: Weidmuller Leakage protection: CHINT
Cleaning model/Water temperature	Circulate/cleaning with water /10-40°C
Function	Dispense soap liquid, clean boot upper and boot sole
Brush Material	Nylon
Brush length	Model HT-7308, L=800mm Model HT-7312, L=1200mm Model HT-7315, L=1500mm
Soap container	5L
Inlet part/Pressure	Solenoid valve/3-4bar(SS304)
Inlet connector	DN20-25 3/4" Internal thread
Valve	Floating ball valve DC24V (SS316)
Drainage type	Floor drain
Drainage connection	DN50mm
Start type	Start Upon sensor induction, stop upon time out (0-60S)
QTY of motor	6 PCS
QTY of brushes	6 PCS
Power supply	AC220V/50HZ/1PH
Power	460W
Material for main body	SS304

Operation steps

Boot cleaning

HT-7300 Boot washer

- ①. Cleaning boot upper
- ②. Cleaning boot sole

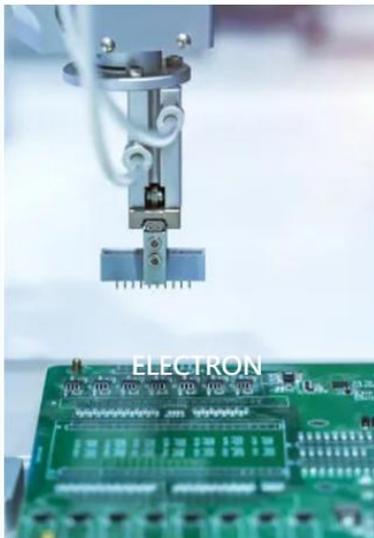

Cleaning agents can be added
Double the cleaning effect of removing stains and grease

A brush that can be quickly removed
Make daily maintenance simpler

Application

- Food industry
- Pharmaceuticals/Packing
- Animal husbandry
- Moder agricultural
- Coal Industry
