

HT-DHV2 Shoe Sole cleaner

Description:

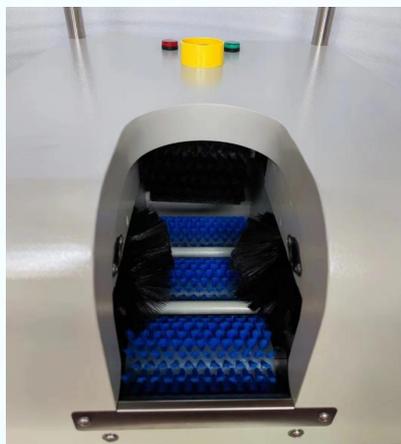

HT-DHV2 Shoe Sole Cleaner – The Ultimate Hygiene Solution for Clean Floors!

Revolutionary Dry Cleaning Technology – No Water Needed!

Tired of wet, messy shoe cleaners? The HT-DHV2 is a high-efficiency, dry-type shoe cleaning machine that removes dirt, dust, and debris from shoe soles and sides without water. Perfect for maintaining spotless floors in hospitals, labs, cleanrooms, offices, hotels, and even homes!

Features:

Automatic work by infrared sensor, no touch operation to avoiding to cross contamination.

Features:**Smart, Automatic Operation – Hands-Free Convenience**

Motion-sensor activation – Starts automatically when someone steps on it and stops after they leave.

Ultra-quiet (≤52dB) – No disruptive noise, ideal for indoor environments.

Energy-efficient (1000W) – Works on AC 110-240V, suitable for global use.

Powerful Triple-Brush Cleaning System

3 High-Speed Motorized Brushes (2 for shoe sides, 1 for soles) deeply scrub away dirt and grime.

Built-in Panasonic Vacuum Dust Collector – Captures and contains dust, keeping the surrounding area clean.

Durable & Versatile Design

Heavy-duty powder-coated steel – Resists corrosion and wear for long-lasting use.

Compact Size (L520*W680*H900mm) – Fits easily in entryways, lobbies, and high-traffic zones.

IP Rating E & Optional Outdoor Cover – Works indoors, and with added protection, can be used outside!

Why Choose the HT-DHV2?
